

Light indicating voice messages received or callback requests.

Preprogrammed keys

- Access the various mail services.
- Access your personal directory.
- Hold a three-way conference.
- Be called back automatically.
- Divert your calls to another terminal.
- Automatically redial the last number dialed.
- Cancel a broker call.
- Pick up an incoming call to another telephone.

Installing the programmable key label

A printed label is supplied with the terminal. This should be installed beneath the programmable keys.

1. Insert a flat "blade" into the slot (1 slot per key block).
2. Raise the cover.
3. Slide the printed label into position.
4. Replace the cover.

Warning

The earcap region of this telephone may attract and retain small metallic objects.

Guarantee and clauses

We, Alcatel Business Systems, hereby declare that we assume the Alcatel First Reflexes product to be compliant with the essential requirements of Directive 1999/5/CE of the European Parliament and Council.

Any unauthorised modification to the product shall render this declaration of compliance null and void. A copy of the original of this declaration of compliance can be obtained by post from :

Alcatel Business Systems - Technical Services - Approvals Manager
